

X J Y - 8205M / M-02 / M-03

METHYL MQ SILICONE RESIN TOLUENE SOLUTION

PRODUCT

XJY-8205M/M-02/M-03 silicone resin is MQ silicone resin solution, is an important raw material for PSA.

ADVANTAGE

- Improve glue adhesion;
- Improve glue temperature resistance;
- Improve the adhesion of glue to the substrate;
- Long lasting;

PSA

XJY-8205M

SPECIFICATION

Brand	XJY-8205M	XJY-8205M-02	XJY-8205M-03
Product Name	Methyl MQ Silicone Resin Toluene Solution		
Appearance	Colorless Transparent Liquid		
Specification	Molecular Weight: 4000-6000, M/Q: 0.7-0.8, Solid Content: 75%	Molecular Weight: 4000-6000, M/Q: 0.8-1.0, Solid Content: 75%	Molecular Weight: 4000-6000, M/Q: 0.7-0.8, Solid Content: 60%

INDUSTRIAL UTILIZATION

- Silicone pressure sensitive adhesive.

PACKAGING

- 50kg plastic drum and 200kg iron drum. Packaging options are available upon request.
