

XJY - 8207S / M

HYDROGEN MQ RESIN

PRODUCT

Structural formula

CAS NO.: 68988-57-8

Powder

Transparent Silicone

Coating

XJY-8207M

SPECIFICATION

Brand	XJY-8207S	XJY-8207M
Product Name	Hydrogen MQ Resin	Hydrogen MQ Resin+Solvent(Toluene)
Appearance	White Powder	Clear Liquid
Specification	Solid Content: 100%, H Content: 0.05-0.2%, M/Q: 0.6-0.9	Solid Content: 60%, Viscosity: 10-40, M/Q: 0.6-0.9

INDUSTRIAL UTILIZATION

- Crosslinking agent: silica gel and silicone resin crosslinking agent.
- Reinforced-filling: used for RTV rubber, HTV rubber, addition type liquid silicone rubber.
- Tackifier: sealant, silicone resin coating.
- Other modified MQ silicone resin intermediate.

PACKAGING

- 25kg fiber drum or 15kg carton. Packaging options are available upon request.
- 200kg iron drum. Packaging options are available upon request.
